

Hunter Douglas Results Half Year 2022

Rotterdam, 30 September 2022 – Hunter Douglas, half year results for 2022:

Seasonality in the sun protection business resulted in a break even for the period before the sale to 3G on February 25, 2022, and such operating results were sold with the business in and do not accrue to the Company's shareholders in any case. Accordingly, the half report shows purchase accounting for the Asset Deal announced on 30 December 2021 and the interest on the intercompany receivables for the purchase price since the date of the asset sale, all in accordance with prior announcements.

The consolidated first half year report for 2022, prepared in accordance with IAS 34, is available on our website www.hunterdouglasgroup.com.
